DATE: October 9, 1990
SUBJECT: Jack Gillis Article in
Auto Inc., September 1990

RE: 009103Z

Attached is a copy of the article written by Jack Gillis, CAPA Executive Director, entitled "CAPA: Certified Parts Promote Industry Competition". It appears on pages 22 - 23 of Auto Inc., the official publication of Automotive Service Association (ASA).

I request that each of you read this article and provide any comments that you have as it would be advisable for DTL to officially submit suggestions as I would imagine Jack will have this or a similar article appear in many other publications. Please provide your comments by Friday October 12.
