Fax No. 486

1. Our inspectors Peter and Jason were taking off after work yesterday by driving down to Tainan before midnight. They showed up at 8:00 in the morning at Tong Yang and Patrick and I were at Supreme at the same time to investigate and to double-check all the TY's toolings for verification of the tooling location. Patrick and I moved on to the next stop at Jully after 10:30 for the same purpose. We have carried out this very important mission late this afternoon. It was such a successful team work with great accomplishment. Tong Yang finally had to give in this time by submitting a list of parts which were illegally subcontracted out to non-CAPA member manufacturers. The list, which is attached, has to be carefully checked with our lists and records even TY's OC chief has admitted it to be a true list of parts violating the CAPA Licence Agreement.
2. Jully has been notified of the approval of their OC manual and soon I will schedule a visit for pre-review of the OC documents which has been implemented for some time.
3. We will be at Tie Feng for plant inspection tomorrow.
